

Monash Technology Precinct

A technology precinct which connects innovators, change makers, researchers and enterprises.

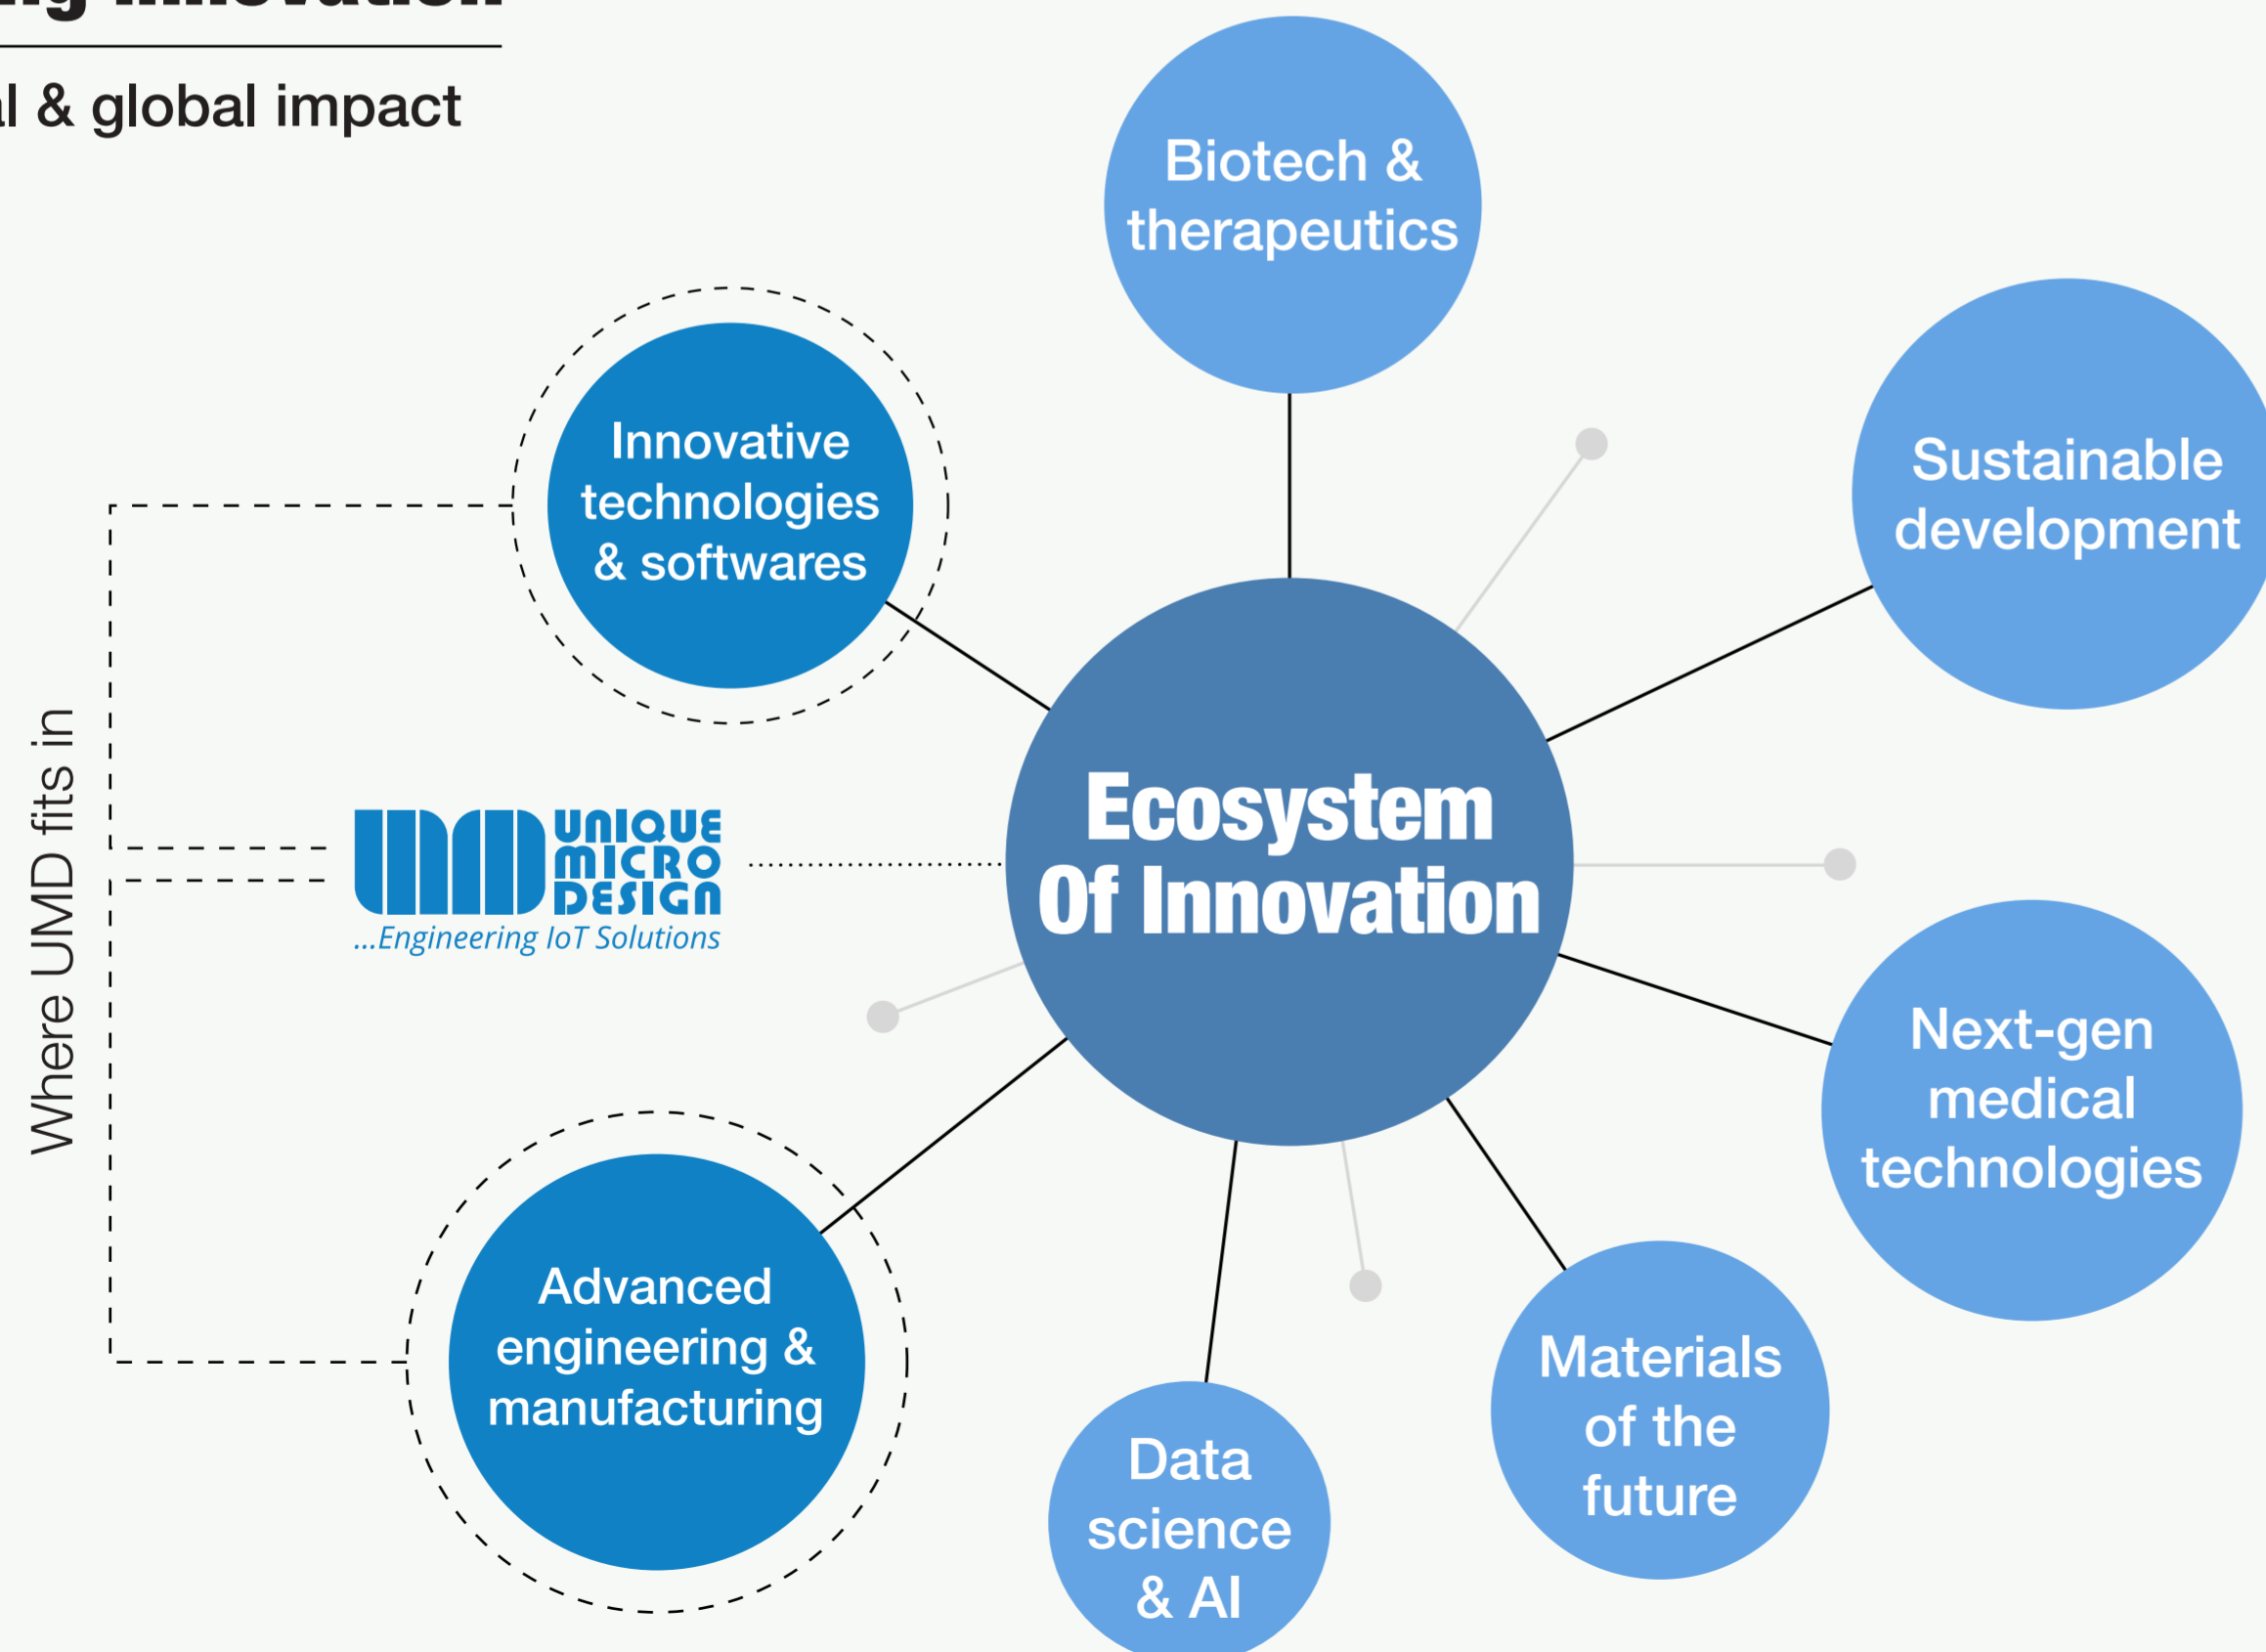

The Monash Technology Precinct, located in Melbourne's South East, is a global leader in future technologies, advanced engineering and manufacturing, data science, AI, sustainability and leading medical technologies.

Unique Micro Design's Clayton head office is in the middle of the Precinct. We have relationships with a range of suppliers, businesses, industries and Monash University within the Precinct, and are proud to be part of Australia's largest concentration of ICT industries.

Australia's most diverse, adaptive & creative technology precinct
